Pleasure

Our Pleasure Mattress incorporates pocketed spring technology, which effectively reduces motion transfer from one part of the mattress to another. The mattress also features a PU soft foam layer and quilting, giving it an added bounce. However, this should not be mistaken for reduced durability, as the mattress is designed to maintain its sturdiness over time. The Belgium knitting fabric used in the construction of the mattress further contributes to its longevity, ensuring that you get the most out of your investment.
